Dear Mr. George:

On October 3, 2001, we received a courtesy letter from the State of Utah, Division of Oil, Gas and Mining about conditional tentative approval of Holnam's Large Mine Plan Permit Revision, Devil's Slide Quarry, M/029/001, Morgan County, Utah.

The letter mentioned that the project is located on federal lands and that you would need to have the Bureau of Land Management's approval prior to the commencement of new disturbance on these lands. We do not have documents relating to the Devil's Slide Quarry mining area. At your earliest convenience, please provide this office a topographic map showing proposed surface disturbance and a plan view map of all proposed mining activities (i.e. waste dumps, quarry walls, access routes, staging area, stored equipment, etc.) to occur on public land.

Thank you for your cooperation. If you have any questions regarding this letter, please feel free to contact Cheryl Martinez of my staff at (801) 977-4371.

Sincerely,

Assistant Field Manager
